

George Thompson Jr. *(he, him, his)*

Therapist

My name is George Thompson Jr. I am an intern attending Walden University and on course to graduate from their Master's Clinical Mental Health Counseling program by the end of 2022. I received my Bachelor's degree from Siena Heights University with a degree in social work with a family focus.

I am a husband and father of two girls. I enjoy spending time with my family. My hobbies include being physically active, playing both board and video games, boxing, reading books ranging from history, mystery, sci-fi and everything in between, as well as stand-up comedy and podcasts.

My objective when working with my clients is to ensure that they feel listened to, understood, and cared for in the context of their life experiences, hopes and dreams, and cultural sensitivities. I strive to provide individualized person-centered care for each client who enters my office to ensure that they have the best opportunity to reach their goals of sobriety, quality and life, and personal expectations.
