

Mike Pioch *(he, him, his)*

Chief Operations Officer

Mike has worked in the non profit field most of his entire professional life and has worked for Community Healing Centers as it's Chief Operating Officer since 1994. During those years he has helped the agency grow and expand it's provider footprint across south west Michigan. Mike has worked to implement the mission and vision of the organization to provide services to it's target populations. Community education and stigma reduction regarding the issues of mental health and substance abuse are also important in the work we are doing. Mike is involved in the community he lives in as a member of various Boards and is active in the school system.
