

**FOR IMMEDIATE RELEASE**

September 25, 2024

**Community Healing Centers Acquires the Kalamazoo Children's Alliance**

On behalf of Community Healing Centers (CHC) and the Kalamazoo Children's Alliance (KCA), we would like to inform the community of an exciting change as we enter the final quarter of the calendar year.

Starting October 1, 2024, Community Healing Centers will have completed acquisition of local nonprofit, the Kalamazoo Children's Alliance. After several months of planning and thoughtful consideration, joint efforts between leadership from both organizations have resulted in this exciting merge. This change underscores the collaboration and commitment to our shared goals of treating and preventing child abuse and neglect that both CHC and KCA have worked towards since their beginnings.

As we look to the future, Community Healing Centers is excited to implement the programming historically supported and offered by the Kalamazoo Children's Alliance, including Kids are Special, Infant Safe Sleep, Mandated Reporting, and the Family Help Book. We believe that this acquisition will bring even more impact and positive outcomes for the communities we serve.

Thank you to southwest Michigan for your ongoing support and dedication to children and families in our community. We look forward to the continued success of these programs and to achieving new milestones in the field of children's advocacy.
